

The **CONDOR**® E-Track Adaptor

STOP! WARNING: READ THIS FIRST!

First Read and Understand the Instruction manual and product labels for important safety, set-up and troubleshooting information if you have problems setting up or using the *Condor*® E-Track Adaptor, contact customer service @ 1-815-754-7418 or contact us via e-mail @ www.condor-lift.com. *Condor*® E-Track Adaptors are not intended for use by children.

Assembly Instructions: Remove all parts from shipping box. Check the parts below to make sure you have all the parts needed to assemble your *Condor*® E-Track Adaptor before beginning. In the unlikely event that you find a part damaged or missing, please call customer service @ #815-754-7418.

figure 1

The CONDOR E-Track adaptor Includes.

4 Thumb Screws 5/16"-18 x 3/4

1 E-Track

1 locking Clip

1 Clevis Pin

1 Hitch Pin Clip

2 7/16" Bolts

2 7/16" Nuts

figure 2

After choosing the appropriate location for your E-Track, insert the rear tab (this is the tab on the end with two bends in it) of the adaptor, into the slot, slide back and lower the opposite (Front) end down flat on the E-Track.

figure 3

Next, determine the location where the Locking Clip will be after lowering the E-Track. Raise the E-Track Adaptor enough to lock the Clip in-place onto the track and lower the E-Track back down over the Clip.

figure 4

If the surface of your Track is even with the surface of the floor (Recessed E-Track) on in your trailer, remove the 7/16" bolts and nuts. They will not be needed. If your Track is installed directly on the floor of the bed, then you will need to adjust the bolts by setting them to the appropriate length to compensate for the height differences. **If used, be sure to securely tighten the nut against the unit to prevent the screw from coming loose after adjusting.**

figure 5

Place the 2" Clevis Pin through the openings until the hole on the inserted end is protruding through the other side.

figure 6

Next, insert the cotter pin through the protruding hole. **After this step, you should verify that your E-Track is locked in-place securely by pulling upwards on the front end of the unit to be sure the Clip was locked into place correctly.**

figure 7

With your E-Track Adaptor in-place, you have 2 options to mount your chock, as shown in figure 8 and 9.

NOTE: Option 9 will require the complete removal of the 7/16" screws and nuts.

figure 8

Option 1 is for forward mounting with the unit facing forward on the track. From the front end of the unit. Be sure to have all four thumb screws that came with your E-Track securely tightened.

figure 9

Option 2 is for sideways mounting with the unit facing sideways on the track, from the third and fifth set of holes in the chock. Be sure to have all four thumb screws securely tightened.

CAUTION: Always make sure that all fasteners are tight and all pins are in place prior to use. Understand the limitations of this product and do not exceed these limitations. Always make sure that the unit's cradle settings are optimum for the tire size of the motorcycle before use. For Sport bikes or Motorcycles with low hanging chin fairing, fenders, and cowlings, the cradle may need to be turned 180 degrees for additional clearance, so as not to make contact with a low hanging chin fairing, fender or cowling. For standard sport bike front wheel combinations, the 1, 2, 3, front settings may be suitable. If instructions are not clear, additional information is available at www.condor-lift.com or call 1-800-461-1344. Technical Components Development & Design is not responsible for any damage incurred by exceeding this product's limitations in structure and/or functionality.

One Year Limited Warranty:

This Condor.

E-Track Adaptor product warranty extends to the original consumer purchaser of the product. All illustrations and specifications contained in this manual are based on the latest product information available at the time of printing. Technical Components Development & Design, Inc. reserves the right to make changes at any time, without notice, in color, materials, equipment, options, specifications and models. Models may be shown with optional equipment. Further information may be obtained by contacting Technical Components Development & Design, Inc. @ #1-815-754-7418.

Warranty Duration:

This product is warranted to the original consumer purchase for a period of one (1) Year from original purchase date.

What is not covered:

Our warranty for your product will not cover abnormal wear of parts, damage resulting from negligent use or misuse of the product, use contrary to operating instructions, or disassembly, repair or alteration by any person other than an authorized service station. We shall not be liable for any incidental or consequential damages for breach of by express or implied warranty on your product.

Return Policy:

15 day return policy applies. Merchandise may be returned within 15 days of purchase. Merchandise must be unused and in its original packaging. Customer pays for freight return. Credit is given upon inspection of returned goods. A 15 percent re-stocking fee applies to all returned merchandise.

How your state's law may apply:

Some states do not allow limitations on how long any implied warranty lasts or the exclusion or limitation of incidental or consequential damages. So the above limitation may not apply to you. This warranty gives you specific legal rights, and you may also have other rights, which may vary from state to state.
